

ACAMPROSATE CALCIUM TABLETS 333 MG

Supporting Long-Term Alcohol
Recovery

Colerx.

INTRODUCTION

Acamprol 333 contains Acamprosate Calcium 333 mg, a prescription medication used to help adults maintain abstinence after alcohol detoxification. It is most effective when combined with counseling, behavioral therapy, and a structured recovery program.

HOW ACAMPROL 333 WORKS

After prolonged alcohol use, the brain's chemical balance changes. Acamprol 333 helps restore this balance, making it easier to remain alcohol-free following detoxification

Benefits

- Helps reduce the urge to drink
- Supports recovery after detoxification
- Promotes long-term abstinence
- Complements counseling and rehabilitation

INDICATIONS & DOSAGE

Recommended Use

- Take exactly as prescribed by your healthcare provider.
- Usually taken three times daily.
- Can be taken with or without food.
- Continue treatment even if cravings improve unless advised otherwise.

Important

- Not intended for treating acute alcohol withdrawal.
- Should be used as part of a comprehensive recovery program.

KEY BENEFITS

- ✓ Helps reduce alcohol cravings
- ✓ Supports long-term abstinence
- ✓ Low potential for dependence
- ✓ Works alongside counseling and therapy
- ✓ Helps lower the risk of relapse

POSSIBLE SIDE EFFECTS

- Diarrhea
- Nausea
- Abdominal discomfort
- Headache
- Dizziness

Consult your healthcare provider if side effects persist or worsen.
